Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 8-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Nanami.

Nanami discloses the field of the invention, including an air box mounted along the side of the engine, with equal length air intake pipes extending thereinto, and being spaced from the bottom.

Re “different predetermined distances”, since the bottom of the air box of Nanami is sloped, this limitation is met.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-7 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nanami.

Nanami fails to disclose the claimed position of the bottom of the air box.

Art Unit: 3617

It would have been obvious to one of ordinary skill in the art at the time of the invention to lengthen the intake pipes of Nanami as desired, thereby causing the air box to be lowered. It would have been well within the level of skill of the ordinary routineer working in the art at the time of the invention to lengthen the intake pipes and relocate the air box as desired. Such would have provided no unexpected results.

Such a modification would have been desirable at the time the invention was made so as to provide for increased performance.

Re claim 5, since the bottom of the air box of Nanami is sloped, this limitation is met.

Re claim 7, "integrally molded" is method of making, which carries no weight in these apparatus claims. The air box and intake pipes of Nanami are an integral assembly.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ed Swinehart whose telephone number is 703-308-2566. The examiner can normally be reached on Monday through Thursday 6:30 am to 2:00 pm..
